

MISSION STATEMENT

Our mission is to promote the economic development and opportunities for the common good and general welfare of Trinity County. We intend to support, pursue, and/or implement expansion, retention, recruitment and start-up businesses in Trinity County, for the purpose of creating and retaining living wage jobs in the County. We intend to develop and implement a collaborative effort for the social and economic growth of the County, to include the local elected officials, private sector, business community, and the public service agencies.

ACCOMPLISHMENTS

- Developed a survey of the available contractors for the Stewardship and Environment Project, through the US Forest Service, to promote and facilitate hiring local contractors for these jobs.
- Assisted with promotion of the Mountain Community Medical Services as a Special District by coordination of sponsors and special advertising.
- Coordinated with local Workforce Development organizations to research and strategize future efforts culminating in publishing *Coordinating Economic Development and Workforce Development*. This continues to function as a guide for us.
- Secured special funding to produce the *Economic Development Action Plan* which utilized local community plans to identify and strategize for next economic development steps.
- Financed and implemented individualized web site development assistance to new entrepreneurs who had completed basic website design.

CURRENT & FUTURE PROJECTS

- Secure funding and construct an information Kiosk as a pilot project at the Trinity Center airport which would give pilots and passengers names and phone numbers of transportation providers, restaurants and shops in the area.
- Gather information from local businesses and organize and publish a Business Directory both in hard copy and on the web.
- Collaborate with other regional economic development organizations to identify, fund and implement a local county based economic development project, enhancing our business climate.
